Cld Duty.

'No, my man, you must not fish without percatch you fishing again, you get two dozen at the and team, so that a fortnight's journey is made at and Miscrellaneous Books of the latest and most ap-

So you've been fishing again, sir," says Old

"Oh! that's it!" replied the first lieutenate;

By boys' head and cars having been pulled about and examined by the master-at-arms, they were dis-

dence, and the first lieutement 's going down as soon

ship, or not, I do not know; but he pulled across the bows, and went round the stern, passing the the clear horizon on the other side, perceived the line, which Juck had half hauled up, and, having an eye like a cnt, makes out Jock also.

At last who should be bring to the surface of the water but Old Duty who had been sucked hooked by Jack as he was pulling up. When Jack saw it was the first heutenant, as he told me, his first idea was to let him down again; but that was only for a moment. The words of the first ill-menant still rang in his ears-"You've got your duty to do and it've got mine,"-and Jack did his duty. bed and resuscitated by the surgeon. The next morning he was all as if nothing had happened, walking the deck with his right hand in his breast

Well, we all told Jack he was safe this time, but Jack thought otherwise. He shook his head, and

Yes sir," said Jarvis; and I catched a first lieu-

tenna," for Jack had a good deal of fun in him.

"Yes, sir," and queer fishes they are sometimes," replied Oid Duty; "but you forget that you have also catched two dozen. You've got your duty to do, and i 've got mine."

Well, as you may suppose, there were many of the large chaff just to see what would take mare.

us looking abaft just to see what would take place, and were not a little astonished at the idea of his rewarding Juck with two dozen for saving his life; however, of course, we were mum; Jack was tied car of the master-at-arms, who again whispered hkely to lead to important results, up; and the first lieutenant whispered a word into to Williams, the boatswain's mate, and the effect of

first licotenant walked away aft, that he might not appear to be a party in the concern; and Jack was therefore you have received your punishment. You great interest to those pursuing geographical inquisaxed my life has hight, and therefore it is my duty great interest to those pursuing geographical inquisaxed my life has hight, and therefore it is my duty great interest to those pursuing geographical inquisaxed my life has highly and therefore it is my duty great interest to those pursuing geographical inquisaxed my life has a light, and therefore it is my duty great interest to those pursuing geographical inquisaxed my life has a light, and therefore it is my duty great interest to those pursuing geographical inquisaxed my life has a light, and therefore it is my duty great interest to those pursuing geographical inquisaxed my life has a light, and therefore it is my duty great interest to those pursuing geographical inquisaxed my life has a light, and therefore it is my duty great interest to those pursuing great meters. to reward you. I could not let you off this punishment, as it would be making the King pay for me,

use. Every lamp will be warranted, if not perfectly satisfactory can be returned. Those about purchasing lamps would not spring, no less than three hundred thousand bushels of wheat would be received and stored at Cancago alone. This seemed so incredible that it was received with a strong expression of disbeller, and the conversation at last ended in the making a bet of \$500, that the Chicago many a statement would not prove true. On arriving at that port, our forwarding friend mentioned the matter to his agents and correspondents inheritation, the amount of wheat in store at Chicago next soring, would not fall short of four hindred thousand bashels, and the upshot of the matter was, he backed straight out of his bet.

We lean that wheat is brought into Chicago from a distance of 150 miles, and the procession of teams as they come in, to an Eastern man, is a very novel and interesting sight. The wheat is carried in large wagons, called prairie schooners. Each in large wagons, called prairie schooners. Each

and so have I got mine."

Jack could not give up the limbt, so he used to fish at night, and all night long, out of the forechains; but it so happened that the ship's corporation to the first lieutenant.

An arriving at the suburbs of the town, the captain goes on at the suburbs of the town, the captain goes on the sample of his grain. A bargain is made for with a sample of his grain. A bargain is made for the whole brought by the carravan: and the next of which they invite the attention of Merchants visiting the City to make their Fall purchases.

ACCOUNT BOOKS ruled to any pattern, and made to homeward.

"only laying night lines! Pray, what's the dif-season. The price of flour there will be ruled by form and Live got mine. Fray, what I have a form and Live got mine and the supply formished by the Eastern States and Obio.

"Please, sir," said Jack, touching his hat, "the difference is—that it's not the same."

"Well, sir, I see but one difference, and I'll products of the upper lake country shall not, as meet it accordingly. You've got your duty to perform and Live got mine.

after the numbers had been piped down, and was dark, the boys were ordered up by the master-at-arms; Jack was seized to the gun and had his two dozen. "There, sin," said Old Duty, as they cust the seizing off; "if fishing at night is not fishing, punishment at night is not punishment.—

Now we have the pulse. You have to make the pulse of th I don't think that Jack perceived any more dif-ference between the two dozen at night time than sation. Like Congreve, too, his wit seldom ap-

insight into character keen. No man form d a more just estimate of the result of public measures: cise than the connection between a quick percep-rion of the ridiculous, and a strong disposition to nor the sights which he sometimes experienced from them, nor the temptations of poverty, ever shook his adherence to his public principles and attachments. But the union of a fine genius with delightful talents, an excellent understanding, a generous temper, and an incorruptible character, was insufficient to support him against the depressing power of dissipation, too long continued, and irregularity of every kind almost reduced to system.

letter from an English gentleman traveling in merica. It is a fair compliment to the independ-nce of Vermont, and the exemplary habits of the things, both among rulers and people, have ex-hibited to this Englishman's mind, when he re-membered how large a proportion of the people

formation. I have journeyed five hundred miles in my own carriage by easy stages, and have not seen my own carriage by casts, stages, and nave to seen a single person in my progress to whom I should have dired to offer alms! As I was detained an hour or two a few days since, I saw a sturdy-looking When the boys were all mostered next morning, teeing a line and holding out their paws, the first lieutement turns round and says;

"Jarvis, you were fishing last night against my orders."

(Christian Observer, Phila, with wool, on which he was seated. He drove to a store, shouldered his bales of wool, one after another, and placed them in a merchant's shop. Who do you think he was? Talmer, the present of the paws, the first lieutement turns round and says:
